正確的執筆方法

大拇指和食指彎成圓圈

鉛筆夾在拇指和食指之間

中指放在鉛筆後以承托鉛筆；無名指和尾指屈向掌心。

先橫後直；先撇後捺；先上後下；先左後右；
先外後內，先進入後關上；先間格後零碎；欲求對稱先寫中央或兩旁。
父母的態度：

有些幼兒的手眼協調能力發展較慢，寫起字來，可能筆劃不夠端正，父母要接納孩子的能力所限，應加以體諒而不要動輒責罵批評，孩子隨著年齡增長，小肌肉較成熟時，自然會慢慢進步。

The stroke order of writing Chinese word

Bent thumb and forefinger in circle

Put pencil sandwiched between thumb and forefinger

Support pencil with middle finger, flex ring finger and little finger to palm.

Writing criteria: Horizontal before vertical, diagonals right-to-left before diagonals left-to-right, from up then down; from left to right; enclosures before contents; layout first then fraction; write symmetrical on both sides and centralize.

Parent's attitudes :

Some children show slow development of hand-eye coordination. Writing Chinese words may not stroke correctly. Parents should accept the children's constraints and not shout at the children. When the children grow up, their fine motor becomes mature. The writing skill will be improved.

Best regards

Cheng Ka Fung
